

Staging Leg Location Guide and Assembly Tips

SETUP:

Start at UPPER LEFT 1st Row 1st Piece and work to right until completing first row then . . .

Move to 2nd Row 1st Piece and work to right until second row is completed then . . .

Move to 3rd Row 1st Piece and work to right until finishing third row and continuing on until stage size desired is completed.

TAKEDOWN:

Take down in reverse order of setup. i.e. Disassemble last piece assembled FIRST.

TIPS:

- Install Leveling Feet w/Pins into legs before beginning to set up stage.
- Using supplied pins attach proper number of legs in proper location(s) (as shown on diagram above) prior to adding each section of staging.
- Watch closely that lock (L) locations match diagram. •FIRST piece MUST start with four legs. •Be sure pins are locked in place. •ALSO be sure that each piece is completely LOCKED to previous piece by turning locks (L) completely into adjoining piece(s).

■ = Leg L = Lock
